

In reference to the Commission's letter dated November 3, 2009, October Quarterly Report (7/1/09-9/30/09)

In response to the Commissions questions concerning "best efforts" we will demonstrate our "best efforts" procedure for obtaining the required occupation/employer information for individual contributors who contribute in excess of \$200 in an election cycle.

We request the required information with the original solicitation, notifying the contributor of the requirements of federal law for reporting the information.

Second, if the information is not received we follow up within 30 days by sending a letter. This letter clearly asks the contributor for the necessary information and notifies the contributor of the federal law requirement to report the information. The letter does not solicit additional contributions and a return envelope is enclosed for the contributor's convenience.

If the information is received an amendment to the original report is made, which correctly discloses the missing information.
